Checklist: 10 Key Points to Ensure the Security of Your Hotel

When travelers evaluate a hotel, comfort and experience are essential. Make sure that the security of your hotel is among the positive elements. Investing in security can not only strengthen your customers' trust but also enhance their overall experience. Follow this checklist to ensure the security of your hotel.

Protectas

Smart Access Card Systems

Opt for intelligent lock and access card systems to streamline your customers' experience. These systems eliminate key loss issues, offer precise access control, and allow efficient management of access areas for staff.

Security during Unattended Periods

Unattended hours can create vulnerabilities. Use an access control system with integrated cameras to maintain security during these periods. Cameras provide a visual means to monitor entries and reinforce the establishment's security.

Protectas

3 Night Assistance by Protectas

If your hotel lacks night staff, Protectas can be your solution. Their camera operators grant access to authorized guests by verifying provided lists, providing additional security during unsupervised hours.

4 Reception Management by Protectas

For an always operational reception, consider relying on Protectas' reception staff. Trained in security and first aid, these professionals ensure continuous physical presence, with a guarantee of replacement in case of absenteeism.

5 24/7 Surveillance

Late hours can be conducive to unexpected situations. Opt for a mobile security solution for constant monitoring of your establishment. A mobile guard ensures maximum vigilance, even during off-peak hours.

Protectas

Exit Control

Prevent internal theft by implementing exit control. Protectas can conduct random staff checks on random days, thereby reinforcing confidence in the hotel's internal security.

Fire Emergency

Procedures Develop clear fire emergency procedures to ensure the safety of your staff and guests. It's essential to train evacuation leaders and staff in first aid. For multi-story establishments, designate evacuation leaders for each floor.

Continuous Training

Provide your staff with ongoing training in security, first aid, and proper use of fire extinguishers. Securitas offers comprehensive programs to ensure your team is always ready to handle any emergency situation.

Protectas

Long-term Investment in Security

Consider security as a long-term investment. The costs associated with security are minimal compared to the consequences of a major incident. Prioritize security to protect your customers, staff, and your hotel's reputation.

Seek Help from a Security Partner

Make Protectas your trusted security partner. Initial risk assessments, customized security solutions, and complete project management ensure optimal security. By choosing Protectas, you simplify the management of your hotel's security with a single point of contact for all your concerns.
